

Executive Flourishing Forum

Because Flourishing People Build Flourishing Organizations

In today's demanding world, it's not enough for workplaces to simply function – we believe they need to flourish. The Executive Flourishing Forum invites leaders to move beyond traditional wellbeing initiatives and reimagine flourishing as a strategic advantage and a true measure of organizational success.

This special event is a joint initiative between:

Eleanor Allen,
CEO of World Flourishing Organization
and

Annyse Balkwill,
CEO of LuminUS Group

Together, Eleanor and Annyse bring the science of Harvard's Human Flourishing Program and the World Flourishing Organization's Blueprint Framework, combined with LuminUS's 10 years of experience transforming organizations into flourishing workplaces.

It's a unique opportunity to gather like-minded leaders who believe that people and performance grow stronger together.
